Truckee, Donner In Joint Study Group

The 9th session of the Lake Tahoe Joint Study Committee meeting was held August 25th and 26th at South Lake Tahoe.

The committee agreed that the membership of this new form of governmental structure, designed to offer comprehensive planning and control to the Lake Tahoe area, will include one representative from each of the three California counties of Nevada, Placer and El Dorado, plus the three Nevada counties of Washoe, Ormsby and Douglas. In total the agency will have 16 representatives with three appointments of the governor of California and Nevada, and one federal representative.

The report will be ready to submit in final form to the legislature of both states in January.

Fred Hodder, Nevada County representative to the committee, reported that the committee has included the Truckee-Donner area in this regional government by a unanimous vote at Friday's meeting. Inclusion of this community will align this area with the interests of tourism, recreation, pollution, water interests, and the many other similar interests of the Tahoe Basin, Hodder said.

"Such a relationship should have the effect of making a great contribution to this area in the future, essentially in solving general water problems, pollution, and especially master planning," he added.

Work Is Approved On Big Project For Sugar Pine Park

Governor Edmund G. Brown said today that public works board approval of a $1,007,750 first-phase development for Sugar Pine Point State Park on Lake Tahoe means 100 top-quality overnight camp units and 100 picnic units, with modern restrooms and other facilities, can be completed there by the fall of 1967.

The new 1,975-acre park, just north of Meeks Bay on Tahoe's west shore, was acquired last winter with $8.3 million in state park and recreation bond funds.

"Immediate public use facilities were rushed into place by the department of parks and recreation and the park has been open to overnighgt camping since July 1," the governor said.

"During August alone the new park has registered nearly 16,000 visitors, including more than 3,000 overnight campers. It now offers 25 overnight camp units, 20 combination camp or picnic units, drinking water and chemical toilets. Thirty more picnic units are nearing completion."

The immediate use facilities also include parking fo 70 cars, road work, water treatment, pier repair and the bringing of utilities into the area.

Reports Of Plane Crash Were False

Reports that a twin-engine aircraft had crashed at North Lake Tahoe Friday were quickly discounted when it was learned that a plane dropping fire retardant on a blaze near Quail Lake was seen to swoop down to a low altitude while spraying the fire, then sped north over Tahoe Vista.

The fire was held to less than a quarter of an acre but required the combined efforts of five borate planes, the 32 inmates from Hobart Mills, plus the Tahoe City Fire Department and the forest service suppression crew to keep it from becoming a major conflagration.

Residents spotted the plane about 11:30 a.m. and believing it was crashing reported it to the sheriff's office at Tahoe City.

Capital Boy Dies As "Empty" Gun Discharged Here

An 18 year old Sacramento boy was fatally shot in an "empty" gun accident at Donner Lake Saturday night about 7:30 o'clock.

Sergeant Roy Waters said that according to reports the two boys were camped back of the R. G. Lindholm home near the Weeks Tract on the west side of the lake and were unloading the gun which they had without permission. According to Lowry, Kuratli had unloaded the weapon and tossed it to Lowry who caught it by the trigger, the weapon discharging, sending the bullet through the victim's heart. The bullet in the chamber had apaprently not been removed with the others.

Waters said that both boys were 1966 graduates from high school in Sacramento and had been camping for six days at Donner Lake.

The sergeant said a full report of the shooting was being submitted to the district attorney.

The body of the victim was taken to the Truckee Colonial Mortuary and later removed to Sacramento for funeral services and interment.

Tourists May Aid In Cost For Tahoe Development Plan

It was decided by the Lake Tahoe Joint Study Committee meeting for two days at South Lake Tahoe during the weekend that the tourists who contribute to the road, sewage and growth problems that threaten the beauty and clarity of Lake Tahoe are going to have to pick up part of the tab for long-range solutions.

Just when or how this can be accomplished is still far from decided.

Dick Graves, chairman of the committee said: "The principle of having the tourist who creates the problem pay the bill must be considered as part of the solution.

"There are many alternative means besides tolls for direct financial contribution by the tourist in one way or another."

The study committee, with Fred Hodder representing Nevada County, plans to have a rough draft of its recommendations prepared for a thorough review at the October meeting. The final draft will be presented to Governors of both Nevada and California between January 10 and 15.

Under the proposed plan, the committee has outlined an agency which will have regulatory, injunctive and contractural authority. However, it has carefully skirted the power to draft ordinances and establish police powers. Any violation of standards set up for the protection of the basin would be referred to the proper county, city, state or federal agency for police action.

If action is not fothcoming, the injunctive power will be used to get court action.

It is estimated that $150,000 will be needed as a basic budget for the new agency.

Plans Laid To Keep W. Lake Road Open

SOUTH LAKE TAHOE — It was decided in a meeting of South Lake Tahoe Chamber of Commerce committees and state highway officials that more maintenance will be required to keep Highway 89, the Emerald Bay road, open all year.

Ron Stokes, chairman of the chamber's hotels and motels committee, said that the population of north shore and south shore areas was more than 35,000.

Stokes said adequate roads where tourists can move freely throughout the year are vital to the economy. He said skiing is a major attraction.

Suppliers and businessmen also have problems traveling in the winter, he added.

Stokes said that the junior college proposed for the west shore would create further all-year road needs.

Elmo Meister, highway district maintenance engineer, A. C. Dideline, maintenance supervisor from Sacramento and Ed Willis, Placerville maintenance supervisor, said improvement of the road along with the maintenance was necessary.

A future meeting to consider with state officials road design is planned.

Summit Hill Climb Plan Progressing For September 17

Preparations are well under way for staging the Donner Summit Hill Climb, sponsored by the Donner Area Junior Chamber of Commerce, with assistance from the Nevada Sports Car Touring Association, to be held September 17 and 18 on the old Donner Summit grade.

Details for the event, such as line of sight flagmen, emergency equipment, parking areas and similar needs are being worked out. In the last meeting, such matters as legal details, insurance coverage and similar items were determined.

James Harris, heading the hill climb committee, said inquiries regarding the races have been received from all parts of the west, indicating the wide spread interest in the event.

Harris is being assisted on the committee by Leon Lucchesi, Fred Hodder, Jerry Teples and Ken Taylor.

Two Cobras have been entered in the contest, giving the race a national flavor. It was noted that these were among the first five cars entered in the climb. Accommodations are filling and entrants as well as potential spectators are warned to send in their requirements as soon as possible.

Unlike most hill climbs, there will be ample spectator viewing area, Harris explained.

Timing facilities will come from the University of Nevada and will provide the highest degree of timing available.

Registration Will Close September 15

"Vote and the choice is yours! Don't vote and the choice is theirs!"

This is the warning issued by Congressman Harold T. Johnson in urging everyone to qualify by registering to vote at the general election in November.

"For anyone who has not registered to vote, an important deadline is rapidly approaching: September 15. This is the last day that you may register and still be able to participate in the November election at which local, state and federal officials will be selected," the congressman declared.

Citizens who by election day will be 21, have lived in California for a year and the county for 90 days may register to vote now, before September 15.

Those persons once registered but who have moved, changed their name or failed to vote in the November 1964 general election and did not return the card sent them after the election by the county clerk or registrar of voters must reregister if they wish to participate.

You cannot vote if you are not registered!

Over the long Labor Day weekend will you be laboring in the kitchen, baking goodies for your family and guests? Burglars Loot Local Drug Store After Entering By Roof

Burglars sometime Friday night entered the Vail's Pharmacy in Gateway and escaped with a still undetermined amount of merchandise.

The same method of entrance was made at Vail's as was used in the burglary of the Z Market a week earlier just across the street from the drug store. The burglars drilled holes in the flat roof, entered the store and escaped with their loot through a rear door.

In the pharmacy burglary, narcotics, cameras, binoculars and other items of value were taken, according to Sergeant Roy Waters of the sheriff's department.

Officers are of the opinion that the burglaries were accomplished by different thieves although the methhods were similar.

Deputy Sheriff Clarence Shoemaker made the investigation.

County Shares In Forest Service Fund

Nevada County is in line to receive a federal check totaling $88,418 as it share of more than $6 million in United States National Forest revenues.

Placer County will receive $175,155 as its share, according to a report from Congressman Harold T. (Bizz) Johnson, whose sprawling second congressional district embraces nearly two-thirds of all national forest acreage in California.

The funds are earmarked for county roads and schools.

According to Johnson, the federal government is required by law to return to the counties 25 per cent of all national forest receipts. This, he said, is designed to offset in part, the loss of tax revenues in which so much of the land is in federal ownership.

The allocations announced were revenues collected by the forest service during the fiscal year ended June 30, 1966.

Sierra County will receive $213,380 and El Dorado, $333,091, with Trinity County getting the largest check of $975,533.

Randy Bobby Will Resign Park Post

Randy Bobby, director of the Truckee Donner Recreation and Park District for the past year, has submitted his resignation to the governing board of the district effective September 11. No successor has been named to the post.

Bobby is leaving with his family for Auburn where he plans to teach in the elementary school this winter.

Bid Opening Set For September 29 On Stampede Dam

Bids will be opened Sept. 29 in the Carson City, Nev. office of the U.S. Bureau of Reclamation for construction of the Stampede Dam and Reservoir phase of the bureau's estimated $51.8 million Washoe Project. Stampede Dam, located on the Little Truckee River above Boca Dam near Truckee, will impound 225,000 acre feet of water and its is estimated at $11.7 million.

Immediate start of construction of Stamapede Dam was directed recently by Secretary of the Interior Stewart L. Udall, who said detailed studies have demonstrated an urgent need for additional downstream flood protection in the Truckee River Basin.

Bureau officials said plans are to expedite specifications to prospective bidders on the Stampede Project with a view to awarding a contract by mid October.

Assuming normal weather conditions prevail, this would permit the contractor to begin work on diversion and outlet tunnels in time to move underground before winter closes in on the mile-high dam site. Underground tunneling could continue during the winter and this would allow the dam to start storing water about a year sooner than would be possible if start of construction were delayed until next spring.

According to bureau officials the proposed set of water rules for the Truckee-Carson Basins would set a ceiling on water to be made available for irrigation of the Newlands Project, eliminated single-purpose power generation, allocate waste and return flows in the Carson Lake Pasture and Stillwater Game Management Area, and provide that custody of the Stillwater area be returned to the federal government.

44th Fire Reported In Truckee District

There have been 44 reported fires on the Truckee District of the Tahoe National Forest during the current season, 15 of which were caused by lightning and 29 man-caused.

Only three of the fires were in Class B, those which covered more than a quarter of an acre and none were of major proportion. It was estimated that less than four acres have been burned over during the season.

However, U. S. Forest Service officials point out that the danger is far from over and with the forest powder dry and the hunting season fast approaching, the warning is issued to use extreme caution in handling fires. It may be recalled that it was about this time of the year when the Donner Rridge blaze got out of control and swept over 39,000 acres in 1961.

One small fire three quarters of a mile north of Kings Beach along the Brockway shortcut was discovered by Sierra Pacific crewmen at 4 p.m. Monday but was quickly extinguished.

While many of the 44 fires reported were potentially dangerous, all were stopped in their infancy through the fast work of the forest service crews and local fire departments.

The meeting reconvened at the hour of 1:30 p.m. and all Supervisors were noted as present.

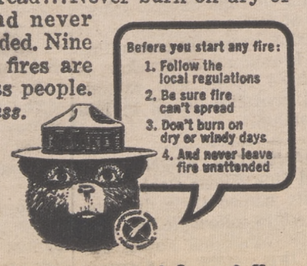
Little sparks...

burn great forests

Common sense is all that stands between controlled burning and full-scale forest fires. Before you start *any* fire, check local regulations... Be sure fires can't spread... Never burn on dry or windy days... and never leave fires unattended. Nine out of ten forest fires are caused by careless people. *So don't be careless.*



Before you start any fire:
1. Follow the local regulations
2. Be sure fire can't spread
3. Don't burn on dry or windy days
4. And never leave fire unattended

Please!... only you can prevent forest fires

Granddaughter, Sheri Smith of Reno, was given a surprise shower at the home of Mrs. Don (Carole) Brackett Thursday night at the Brackett's new home on Joshua Way. Sheri's mother, Charlotte Burroughs of Carson City, mother and sister in law, Mrs. Robert Smith, and Harle of Carson City, Elaine Harris, Marti Allison, Marie Vance, Louella Thomas and Bethel Van Tassel enjoyed punch, cake and coffee, along with gift opening. Postcard from Dick and Ruth Lavery from Victoria, B. C. where they were fishing thence back to Idaho for a few weeks before returning to Tahoe.. They advise that son, Kenneth and wife, Virginia, named their baby boy Kevin Patrick — a wee bit Irish — and that he is QUITE a boy. Their new trailer is a dream with all the comforts of home — maybe they will just forget to build a new house and just keep the wheels rolling. However, their future plans call for sails instead of wheels so guess that wouldn't work either!

A 25th Anniversary Salute

to the 500,000 star-spangled Americans who work for this country's security without pay

The U. S. Treasury Department sells about $4½ billion worth of Savings Bonds every year.
Yet no one ever tries to sell you Bonds on the phone.
Though you rarely see them, there are about ½ million patriotic Americans who will help you buy Bonds. Have been, since the first Series E Savings Bond was issued 25 years ago.
Your banker, for instance. He'll give you folders and facts, issue your Bonds, make certain they're properly registered, cash them when the time comes.
Your employer and thousands of other employers who have set up the Payroll Savings Plan are also on the team. So are the officials of your union who have endorsed Bonds.
There are many others. Like your neighbor, the advertising man, and the radio, TV, poster, magazine and newspaper people he works with.
All of these volunteers work for the Bond program without pay.
You can do your part, too. Buy U. S. Savings Bonds.

DONNER DOINGS

By Mrs. Carson "Vi" White

Cooler weather has appeared for the last week of vacation and the big Labor Day weekend. Fall is in the air. S'rong breezes are dislodging pine needles that are blanketing everything.

Lots of activities are being planned by individuals and students will have their last big fling before ye ole school bell rings Tuesday.

Members of the Sierra Tinker Belles Garden Club enjoyed a delightful stopover at Boreal Ridge last week before a trip along the Bowman Lake road.

Babs Fisher, public relations director had coffee and delicious sweet rolls set out on the large deck overlooking the ski slope. She later showed the little wild flower garden so diligently trasnplanted by her and artfully arranged with native rock.

Mr. and Mrs. Paul Smith were also there to greet the visitors. Mr. Smith is one of the owners of Boreal Ridge.

Manager, Jay Price showed the new ski run that will be used next season. Looks mighty challenging too!

It won't be too long before snow will be falling.

The mountains have been bare of the white stuff for a long time, the warm weather really melted it fast this year.

Mr. and Mrs. George Rolling of Yucaipa, California celebrated their 50th wedding anniversary here last weekend. They are the parents of Mrs. Bob Roth of Donner Lake and were entertained at dinner at the North Shore Club.

Two sons and two daughters and their families also from southern California attended the affair: Mr. and Mrs. Henry Rollins of Uplands, Mr. and Mrs. William Rollins of Wrightwood, Mrs. L. M. Collins of Trona and Mr. and Mrs. Claude Cyren of San Diego.

Arlene and Bob's children, Jan and Jim were here too to help celebrate the Golden Wedding of their grandparents, however they are now getting settled back at college, Jan at the University of California at Davis and Jim at Sierra College.

John Corbett of Donner Lake was able to show part of his 7000 arrowheads that he has found throughout California at the Heritage art show at Tahoe Lake School last weekend. Several interesting artifacts were displayed and some lovely paintings too. John recently found a couple of arrowheads in the Alpine Meadows area and picks up oodles of them around Donner Lake, too.

The kids sure had fun over at the Ponderosa Golf Course last Wednesday when the Lions met with their sons. Carson White gathered all kinds of games to play and everyone was kept busy throughout the evening. A barbecue supper was served there.

My isn't it encouraging to see the equipment digging up the route that the sewer pipes will take. Right now it's very evident along Donner Creek behind the Shell station and near the school grounds by the freeway.

* * *

A meeting of the Donner Lake Property Owners' Association will be held at their beach Sunday at 1 p.m. The official election of officers will take place, plus the reports of the road situation. Everybody's hoping that some construction will get started this fall on the drainage at least.

Plumber Joe Jesse was out at the hospital grounds Sunday donating time and labor for laying pipe to be used for irrigating. Lucille and Frank Quilici were also putting in several hours getting the area ready for a lawn by the entrance. All the help that can be and has been done is greatly appreciated. The site looks better all the time.

"Vive Les Girls" Show Makes Labor Day a Play Day at Lodge

CRYSTAL BAY — Labor Day weekend crowds have a big treat in store at North Lake Tahoe's Nevada Lodge, as the spectacular 'Vive Les Girls' revue continues to shine with glamour, girls, music and wit.

Going into its 13th week, the adult-only extravaganza features a stunning array of beauteous showgirls from the United States, Europe and Asia. Statuesque Jacquie Walters stars as lead dancer, bringing to the shores of North Lake Tahoe a background of appearances at Paris' famed Moulin Rouge, where she met producer Fredric Apcar.

Apcar has created an entirely new revue for 1966, bringing together an adult potpourri of glamorous girls, fast-rising singing stars, intriguing specialty acts — all designed to provide a fast-paced continental revue in the tradition of the Folies Bergere and the Ziegfield Follies combined.

Starring on the male side is English-born Gary Marshal, RCA Victor recording artist and veteran British television performer, who is quickly rising to the American show business heights. Marshal has been likened to Robert Goulet; his two RCA releases have been prominently featured on metropolitan radio stations, and he will soon make his American debut in motion pictures.

Rounding out the show, complementing the lavish dance numbers and musical presentation are a group of fascinating specialty acts. Rola and Rolan dazzle audiences with startling gymnastic balancing feats which have enthralled nationwide television audiences. The Great Curazini puts on an "impossible" cigarette smoking display which defies explanation; Charlotte Arren and John Broderick create their irrepressible "Opera in the Ruff" performance which has won them applause across the nation.

"Vive Les Girls" will be staged nightly in Nevada Lodge's Topaz Room through October 2. Continuous entertainment is also featured in the Nevada Lodge Lounge from dusk 'til dawn. Presently featured is The Cousins and Lewis and Marone.

Skiers Are Honored For Heroic Action

NORDEN — Twelve skiers recently were awarded gold and green stars by the National Ski Patrol for acts of heroism.

Among them were four members of the Sugar Bowl Ski Patrol, one from Sierra Crest, one from the Sierra Ski Club and another from Sacramento Ski Patrol. They led a rescue party through a raging blizzard at the Sugar Bowl January 2, 1965, to probe for a body of a skier buried under eight feet of powder snow. The skier had been buried by an avalanche.

Those awarded the National Ski Patrol stars are:

Robert McNee, Clyde Deal, Joel Readio and Natalie Readio of Sugar Bowl; Parky May of Sierra Crest; Vivian Nesbit, Tyler Harding and Gene Rockman of East Bay; Rich Gnagy of Sacramento Ski Patrol; Ken High of Sierra Club; John Shillich of El Grande and Frank Shoemaker of San Francisco.

The ski patrol also awarded certificates of appreciation to Toni Marth, Christian Marth, Royal Robins, Dick Seigger, Bruno Richter and Junior Bonous of Sugar Bowl and Nancq Schumacker of Hillsborough.

MOTORCYCLE OWNERS ARE WARNED OF LAW

Motorcycle owners were reminded by California Highway Patrol Commissioner Bradford M. Crittenden that they can be cited if they transport their motocycle on a vehicle and obscure the license plates, the lights or the driver's front view.

"A motorcycle cannot be carried on the front or back of a vehicle if it covers the headlights, turn signal, stop or tail light, or the license plates, or if it extends above the hood and obscures the driver's view of the road," Crittenden said.

"The increased number of motorcycles being purchased in California for use on vacations and in conjunction with camping trips makes it necessary that the applicable laws be understood, Crittenden concluded.

Since 1903 a total of 28,000 square miles of the United States has been set aside as National Wildlife Refuges.

Jerry and June Richarls of Sausalito are enjoying a couple of weeks at their Tahoe Vista cabin. The Richards are longtime summer residents, Jerry's father having acquired the property in 1913.

Bethel drove up from Reno to have dinner at the North Shore Club with Jerry and June who are longtime friends.

The Richards' cabin is one in which one camps—oil lamps, wood stove and one of the last of its kind at Lake Tahoe. However, because of favors granted to neighbors, June and Jerry now have water piped to their door!

They have also acquired a new cabin cruiser which is locked at Sausalito and on which we anticipate a cruise during our vacation later this fall.

Archery Deer Hunt Open September 3

Archery deer and archery bear hunting will open September 3 and run through September 18 in late deer season areas and in District 1-¾, the California Department of Fish and Game reported today. Hunters were advised to consult the 1966 hunting regulations booklet for details. The booklet is available free of charge wherever hunting licenses are sold.

The deer bag limit is two per season forked-horn or better, in northwestern California, one deer, three points or better, in District 1-¾, and one deer, forked-horn or better, in the rest of the late season area. The bear bag limit is two per season statewide.

Hunters should have a valid 1966-67 hunting license, deer tags to hunt deer, and bear tags to hunt bear.

Archery equipment authorized fr the taking of big game is limited to arrows with a broadhead type blade which will not pass through a hole seven-eights inch in diameter.

CLOSING DATE NEAR FOR CHP APPLICANTS

The closing date for filing applications to take the California Highway Patrol civil service test for Traffic Officer is only two weeks away.

Lt. O. P. Ledford, officer-in-charge of the Truckee Substation of the Patrol said today that the final date for filing applications is September 16.

"Applications must be in by September 16," Lt. Ledford said, "if prospective patrolmen are to take the written test on October 15."

In addition to the written test, an oral examination is required of all persons successful in the written test.

Extra Patrolmen For Holiday Traffic

California Highway Patrol Commissioner Bradford M. CrCittenden said today that Labor Day holiday travelers are apt to notice an increase in the uniformed strength in the California Highway Patrol.

Crittenden said this as part of a joint statement with California Medical Association President Dr. James C. MacLaggan of San Diego in which both urged California drivers to watch for the symptoms of potential accidents. These they listed as: driving while sleepy or after drinking, or even when angry.

For his part, MacLaggan referred to the traffic accident as a major public health problem. Its staggering cost in human lives, misery and money has aroused increased concern in the medical community.

Crittenden indicated complete agreement with MacLaggan and said the patrol has been authorized to double its force in order to help Californians with the problem.

"Some of these new men are already on freeways near metropolitan centers in California," said Crittenden, "and drivers will notice this increase on Labor Day weekend.

"The increase in manpower and the increased awareness of our mounting injury and death problem should serve to alert Californians to drive by all rules of the road this Labor Day weekend, and on every day they drive."
